

LANDING LEGS

Profiling our Landing Leg Range; The Exceptionally Strong & 'Fast' Holland Mark V and the Economically Efficient' SAF Atlas 24 featuring constant mesh technology ...

Holland MARK V Landing Legs

The legendary MarkV landing leg is the industry leader that will always deliver the strength, ease of operation, and the durability needed to exceed the demands of any landing gear application.

Capacities::

- Static load capacity 90,000kg
- Lifting capacity 28,000kg
- Side load capacity 15,545kg

Mark V landing legs have a fast high gear ratio & are therefore quicker to reach the ground. They are also easier to wind when laden.

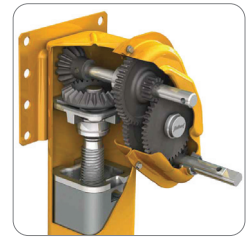

Standard & Low Gear Height Options:

Part No.	Description:
LGS1A	Mark V Landing Leg - 13.5" Travel
LGS4A	Mark V Landing Leg - 17.6" Travel

Built In Durability

Three large, in-line, heat-treated ductile iron spur gears. Large, rolled, 1-5/8 inch diameter double lead elevating screw offers added strength and smooth lift. Gearbox with low-temperature, premium lube rated for service from -65°F to 225°F.

Double D Crank

Double-D Crank handle connection means more stabilised cranking and stronger crank connection.

SAF Hercules Landing Legs

Exceptionally robust and economical.

High quality, cost-effectiveness, reliability and ease-of-use combine with a very long service life.

Capacities:

- Lift capacity: 24,000 kg
- Static load capacity: 50,000 kg
- Low gear: 1mm per turn, High gear: 12mm per turn

- Currently available in 350 & 460mm travel
- 400, 410 & 510mm can also be ordered

Part No.	Description:
LGHG/0 65-35	Hercules Landing Leg Travel 350mm
LGHG/0 80-46	Hercules Landing Leg Travel 460mm*
	*Replaces Atlas24

For curtainsiders, refrigerated vehicles, tankers and silo trailers, tippers and walking floor trailers, low-loader and heavy duty transporter.

SAF 3D backplate

Continuous 10-hole 3D backplate guarantees a variety of mounting options and facilitates the replacement of landing gear on the market

SAF gearbox

- External, compact gear box with low installation depth enables easy inspection when needed
- Switch easily between high and low gear

Additional advantages

- Weight reduction per set 8 kg compared to the SAF TITAN Pro
- Special coating provides long-term protection
- 3 Year warranty

Replaces Atlas 24 Landing Legs

3-YEARS
MAINTENANCE-FREE
