

NEW INTEGRATED LOW-WEIGHT FIFTH WHEEL SLIDER SYSTEM (ILS)

In August 2017 the new Holland ILS Slider System becomes available in New Zealand. Replacing previous models, ILS offers great performance & weight-saving advantages ...

The Holland ILS Slider System provides superior weight savings when compared to competitive fifth wheel assemblies.

When combined with lightweight Holland fifth wheels, the Holland ILS Slider System **saves up to 40kgs** when compared to competitive fifth wheel assemblies.

- 1 SAVES WEIGHT:** The ILS Slide System saves up to 60kg when compared to the traditional Holland inboard slide system.
- 2 QUICK & EASY HEIGHT CHANGE:** Slide brackets can be changed without torching, grinding or welding. Brackets bolt on through the top and can be changed in 15 minutes or less.
- 3 Improved air cylinder** provides a smaller design to sit up under the top plate to keep it protected from damage and debris.
- 4 New bushing design** improves the life of the bushings and adds cushion from side-to-side load.
- 5 Available with FW35, FW31, and FWAL** fifth wheel models.
